PROFILE

Motivated Computer Engineering student at Sardar Vallabhbhai Patel Institute of Technology, Vasad, with Software Engineer-level proficiency in Web Development. A responsible and disciplined individual eager to apply technical knowledge in a real-world setting. Actively seeking a first professional work experience to grow and contribute effectively.

EDUCATION

B.E. in Computer Engineering — In Progress
Sardar Vallabhbhai Patel Institute of Technology, Vasad
2026 – Present
Current CGPA- 8.35

Higher Secondary (PCM) — Gujarat Board
St. Mary's High School
2021 – 2023

TECHNICAL SKILLS

- **Skills :** C , Java , Python, AI , ML , Num Py , Pandas , Matplotlib , OOP's Concept, Django, Flask , APIs
- **Web Development**: HTML, CSS, JavaScript , Type Script , Angular,Node.js React.jS, Next.jS, Express.js
- **Database Management**: MySQL, PostgreSQL, MongoDB, Supabase
- **Data Analysis & Data Visualization:** Excel, Power BI, Tableau, Dashboard Design, Reporting
- **Developer Tools**: Git, GitHub, VS Code , Antigravity
- **Soft Skills:** Quick Learner, Teamwork, Communication

EXPERIENCE

AI Strategy & Business Intelligence Intern (Virtual)
CSRBOX – AICTE IBM SkillsBuild Internship | *Mar 2026 – Apr 2026*

- Selected for a 6-week virtual internship in collaboration with AICTE, focused on Generative AI, Agentic AI, automation, and modern AI integrations.
- Participated in expert-led masterclasses on AI-driven web architecture, conversational systems, autonomous AI agents, and production deployment.

Full Stack Development Intern (Virtual)
CodeAlpha Internship | *Jun 2026 – Jul 2026*

- Completed a 1-month virtual Full Stack Development Internship, delivering industry-oriented web development solutions and gaining practical experience in building responsive, scalable, and performance-optimized applications.

- Strengthened proficiency in HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Git, and GitHub, while following modern software engineering practices, code optimization techniques, and collaborative development workflows.

IBM SkillsBuild Academic Intern (Virtual)

AICTE & BharatCares | *June 2026 – July 2026*

- Completed a 6-week virtual internship in Big Data & Business Management, gaining hands-on experience in Business Intelligence, Data Analysis, EDA, Dashboard Design, and Reporting.
- Worked on a real-world project while developing skills in data-driven decision-making, problem-solving, data visualization, communication, and teamwork

PROJECTS

CompareKart — Multi-Platform E-Commerce Price Comparison Platform

- Developing a centralized shopping comparison platform that helps users evaluate product prices across multiple online retailers through a unified interface.
- Integrated SerpAPI-based data retrieval to obtain product information and support cross-platform price comparisons, with simulated data used for an additional retailer source.
- Designed a user-friendly product discovery experience to simplify price evaluation and help users make more informed purchasing decisions.

GitHub: . (https://github.com/HarshP2709/PriceComapre-main)

Connect-Pro — Real-Time Communication and Video Calling Platform

- Developed a full-stack communication web application supporting real-time messaging and audio/video calling through WebRTC and Socket.IO.
- Integrated user authentication and a responsive interface to provide a more secure and accessible communication experience.
- Connected real-time communication components with the application backend to support interactive conversations and seamless user workflows.

GitHub: (https://github.com/HarshP2709/Connect-Pro-Communication-App)

Harsh Portfolio — Responsive Personal Developer Portfolio

- Designed and deployed a personal portfolio website to showcase software projects, technical skills, and professional experience through a modern, responsive interface.
- Implemented smooth animations and integrated EmailJS to enable contact-form submissions directly from the website.
- Deployed the application on Vercel, providing a publicly accessible platform for presenting development work and professional achievements. (https://harsh-portfolio-three-liart.vercel.app/)

CERTIFICATIONS & ACHIEVEMENTS

- **MECIA HACKS 2.0 — Hackathon Participant:** Participated as a member of Team Tech Explorer in a 24-hour multidisciplinary hackathon organized at SVIT, Vasad.
- **Apexia Web-Verse — Event Participant:** Participated in a web-technology-focused event organized by Apexia in collaboration with the Student Development Club, SVIT, Vasad.
- **Apexia Designiti — Event Participant:** Participated in a design-focused event organized by Apexia in collaboration with the Student Development Club, SVIT, Vasad.
